

The Harmonious Sequence of Tones Is Important

Actually it is not so important what kind of music you listen to, be it classical music, classic-rock, country, folk music or pop songs, but important is the sequence of tones, what the rhythm is like. Music must serve a purpose, it need not please you, but it must first do good to your body, your spirit, your mind, it must do good to your soul. And for that reason it must consist of a sequence of tones that is harmoniously adapted to your nature. But techno, for example, totally opposes your nature, totally opposes your nerves and your heartbeat. Good music has an harmonious sequence of tones and melody, as GOD intended it to be. Today, this ideal music can be found especially in the so called classical music, which is unfortunately rejected by many, only because they do not know it.

Good Music Has Healing Effects

Music that brings you to convulsions or to a screaming ecstasy is from below. But music that gives you an impulse to above, through all sorts of gifts and talents, is always given by GOD. Good music, blessed by GOD, has healing effects. Get this music and you will have it in your heart. Amen!

Sermon

of the *Sword-Bishop*

Music, a Gift from GOD

My beloved, so many people do not make use of an enormous gift of Heaven – music. For that reason, they dry up within their soul. Good music lifts up your heart. You may be broken physically and psychically, a good music can heal you. There are surely moments you need silence, but you will see, music will seize you slowly and lift up your heart. As a young boy I had a dreadful dryness and I was hardly able to keep the daily prayers. So I turned on music every day at the evening prayers and I prayed with this support which was very helpful to me. This grace of music is so great, so recommendable, Satan also knows that. He catches millions of young people by his music, mainly by that kind of music, in which the drums have an effect on the cardiac rhythm. This paralyses man and puts him into a trance. Your heart and soul are drawn to the world by it, whether you realize it or not. The devil is still the prince of this world.

My beloved, I do not tell you this because I like classical music, but because I learnt it from GOD. I understand everybody who has got involved into it unknowingly or has even become addicted to it. I see the net cast over these people. – I repeat: this modern music leads you only to the world, taking you away from GOD! It is charity to hear the news in order to know what happens to mankind all over the world, to learn about their suffering, about their distress, but everything else you get offered abundantly, such as filthy trash, indecencies and bad music, draw you away from GOD! I can tell you, that way Satan's smoke streams into every house. The Angels flee – they do not bear it.

Harmonious Music Is Very Healthy

Harmonious music is not only a pleasure, but also a medicine. It calms down, builds up, elevates and encourages, it even brings about combativeness for the good. It is very good for the heart, for the nerves, for the mind. Just as a hearty laugh is a good medicine, so it is with music. (There exists also a sardonic, diabolic laugh, which has no good effect.) Take a fine plant and play aggressive hard rock for some time beside it. You will see it dying. (However, pay attention, there are certain plants that like hard rock and thrive on it. It is very interesting that these are generally toxic plants.) – Observe it at a farmer's. When he lets the cows hear classical music, they will produce more milk. When he lets them hear hard rock, they will produce less milk. – Or when you are sad or downhearted, listen to impressive music, which will give you a fresh heart and encourage you, and you will feel better again. The SAVIOUR quite often tells me to listen to music, especially when I go through very hard times.

Dissonance

The monkey of GOD, however, the old serpent, who is himself lie, twists all that is good and beautiful, which GOD has put into creation, and leads the world astray and rapes it by his lies and discord. His "music" is totally contrary to the harmony created by GOD. It is neither melodious nor beautiful, disturbs the heart rhythm severely and tears the nerves into pieces. It is mostly made up of crazy, hysteric cries. It tenses man up and arouses fanaticism in him, as you can see very well e.g. with techno and certain hard-rock. It deprives man of his personality, makes him an insecure mass man. That is one thing. Further there exists music that is charged demoniacally by a black magician. Many sound carriers are marked with magic signs as e.g. the magic eye or the so-called peace sign. One cannot blame the youngsters for it, they do not know. They use and carry such things very proudly not knowing that they give the Devil power and permission to influence them. Even horrible prayers to Satan, most hideous curses against GOD are woven in this music so cunningly and subliminally, that one does not or hardly perceive it. They often sing along with it without understanding the text, e.g.: „Satan, our great hero!“ Another trap is that the young people venerate and idolise these "singers" in a blind fanaticism. – If only they would venerate GOD in the same way.

Youth Will Accuse of Seduction

Sometimes youth reproaches us adults that we do not understand their music. But I tell them: „You do not understand our music!“ One must make out: what is absurd and what is classical; it is the same with clothes and one's behaviour. Am I a classical, fine person or am I an absurd and aggressive fellow? Tell me what kind of music you listen to and I will tell you who you are. Show yourself in the clothes you like wearing and I tell you, whose child you are. Do you want to walk about as it is projected especially in hard rock? Do you want to look like a Devil, black and ugly, with horns and the like? – Youth just does not notice that they are being seduced. Look, there are girls and boys who constantly listen to hard rock and the like, as a result they are very aggressive and then again they sing songs about JESUS with whole their heart.

Frustration

I just do not understand that youth cheers every babbler who lets out his frustration. Those musicians are usually people who are themselves in a mess and so shriek out this frustration in their music. And since young people are often frustrated themselves, they cheer them because they feel the same thing in it. But they could cheer themselves, since they feel just the same frustration. If you cheer and applaud a singer who cannot even sing, who is simply shrieking, then bear in mind that they acclaimed Hitler too. He also shrieked. All this is already acclaiming a dictator on a small scale.

Aggressiveness

Aggression mostly comes out of sound carriers pictured with metal Devils, aliens, robots and the like. This aggression passes on to you when you listen to it. – When you, young people, want to be aggressive, so be aggressive against evil! Not against your parents, who you suppose to be ignorant, but who mean well somehow. Be aggressive against what damages you, what leads you into hell. – You will perish! You become aggressive! Listening to such aggressive music, you will be damaged, not your parents or those who do not listen to such music.
