

most unbelieving person recognise how he stands before GOD because it is a divine act on earth. Once I had a mental picture and I saw how even then many people will not be willing to accept it although they realise it. It is unbelievable! They are the ones who afterwards will no longer be alive.

Prophecies do not necessarily have to be fulfilled or are often misinterpreted by people. They are not meant to be interpreted, which in the past has been done even by the Church, but, when they occur, to prevent people from losing control of themselves, and to let people know that this is now GOD's intervention. – GOD wants to save every single person. We are the instruments for this purpose. In fact, all human beings would be instruments meant to do this on behalf of GOD, especially those consecrated to GOD. Amen!

## **Tested, Sifted Out, Weighed Divine Warning**

My dearly beloved, these are the beginnings of the time that call for great faith in GOD. Good people, at times even exceptionally good people or those who have potential to become good, will now have to go through hard times, whether at work, through diseases or through fellow people, who do not want peace and so on. Oftentimes this happens precisely to those who are devoted to GOD. Exactly these people who are purified, strengthened, tested and weighed by GOD, will maintain their composure in times to come and will be able to strengthen others, support them, help and advise them.

### **Do Not Lose Heart!**

Only somebody who is one with GOD might be able to sense somehow what a disbelieving frame of mind rules in the world, what human weaknesses and defectiveness prevail even among the highest Church leaders, who actually should be the guarantors, – what a lack of love there is among them, that there is no foundation any more. It is, therefore, necessary to sift out, weigh and test again and again.

Make sure you do not lose heart if you miss the mark occasionally, when, perhaps, someone nearest and dearest to you dies. What a feeling it must have been for GOD the FATHER and the HOLY SPIRIT when they had to stand by and watch what happened to GOD the SON in His Passion? JESUS suffered as a human being

like us, but at the same time He also suffered as GOD. That is what is incomprehensible to us: the SAVIOUR would have needed only one thought of anger about what they did to Him and the whole world would have ceased to exist. But He endured everything in order to redeem us, because He so much loves us.

### **GOD Is Good!**

In suffering the following thought is often helpful: „GOD is good!“ He cannot do evil or intend to do such. Only the devil can do so, but not GOD. Either it is our own fault if things are going badly for us, or we will be strengthened by this suffering. As a result, one often finds GOD in a deeper way provided that one has understood in all adversity to call to Him and to trust Him – when one feels as if GOD has vanished. Some call to GOD, some are quiet knowing: „GOD does see me – that is enough.“ GOD cannot intend to do any harm, it is just that we human beings often do not understand why GOD allows this or that to happen.

There was a time when we were able to help many even through miracles. In much earlier days I used to say to you that a time will come in which we can merely give strength. Unfortunately, this terrible sinfulness of men envelops the entire earth like a dense, gruesome fog. GOD created such a wonderful earth, everything was perfect. But then the first people – as well as all of us – said: „No! Right now, I am keen to see what is forbidden, I just want to experience it!“ People are often talked into sin by others, maybe not even out of evil-mindedness but out of weakness. For this reason the SAVIOUR went to the cross so that we may be able to return to GOD who forgives us, if we repent, all our sins. Yes, even if someone were the most evil person on earth and had lost grace, but someone prayed for him, he could die a saint. And we would say about the One who saved us that He is evil, that He punishes? What often looks like punishment is actually salvation when looked at from GOD’s point of view. Of course, there are people who rail against GOD if something very bad happens to them. But there are also others, who then suddenly start seeking GOD. Many were saved in this way.

A mother of five little children died. People were outraged: „How can GOD allow a mother of five children to die!“ But from GOD’s point of view things looked as follows: GOD knew that there would be a divorce in five or seven years. The woman, at first feeling very hurt of course, would have married another man, who would not have been kind to her, so that she would have become morally bad and would have fallen away from GOD, as would the first and second man. Their souls would have perished. So GOD allowed the woman to die as long as she was still good. And as a result her husband changed for the better, became the most caring father for the five children and remained faithful to GOD.

### **The Warning**

At present GOD does not need to punish mankind any more since they punish themselves with tsunamis and all the natural disasters. People deprive Mother Earth of all the forces she needs in order to be a beautiful earth. As Adam and Eve lost this wonderful Paradise, so will we lose our beautiful earth step by step.

It is true that forests, plants, animals, etc. do not have a soul as we do, but they are animated by GOD and therefore are able to strike back. If the earth through exploitation reaches a certain point, she will start reacting. But who caused it? Man, not GOD! If things went on like this without GOD, I believe the earth would completely cease to exist. GOD would have to step in to preserve her. However, GOD will not strike again with lightning and fire as in the days of Sodom and Gomorrah, because the Godhead in JESUS CHRIST has now merited for us mercy. That is why we will always have the possibility to turn to GOD again, come to believe, become normal and recognise GOD.

So GOD had to do something without striking with a vengeance, and that is warning people. If overnight everything were smashed to smithereens by lightning and fire, so that all people would perish, we would never have the triumph of the Immaculate Heart of Mary, would we? So at some future time a warning will come, having even the
