

Switzerland, Germany, Austria or wherever, are holding demonstrations, flinging stones at the police in our countries and yet want to be offered refuge by these countries. Is that right? Those very people are just used to holding demonstrations, brawls and so on. The time will come when you men will have to fear for your wives – and vice versa as well.

Speaking of which, it is really so pleasant to love GOD! Even in the greatest grief, during nights when I am barely able to have sleep, I am still happy because I know I am loved by GOD and I love GOD! This is the only strength which you must have in future. In addition, of course, the Sacraments, Sacred Scripture, blessed objects at home. And – I do not want to speak for myself – but trust him whom GOD has given you as bishop! Amen!

Refugees Flood Europe The Trojan Horse

My dearly beloved, sometimes I wonder: „Where are those people who used to hear about the prophecies?“ I do not speak of Nostradamus and other seers, I speak about the Mother of GOD herself, e.g. in La Salette. What the Mother of GOD said quite clearly, I consider the very best. – Where then are these Christians? They have forgotten everything. The prophecies have been so powerfully fulfilled and the Christians are blind, do not see. I know, when there are a thousand prophecies, perhaps seven are genuine. But after all, I am speaking about the real ones, that is why I directly resort to the prophecies of Mary, the Mother of GOD. If you know these prophecies of Mary in La Salette – although the Church did not even publish everything of them – you can see that the time has come that many things are to be fulfilled: two Popes, the financial crises ... and mainly a prophecy in which it says: „A foreign people will flood Europe.“ That is happening now, isn't it? Many things are simply withheld from us. The Church also remains silent. Even the Pope has told before journalists: „The best would be a world government!“ That is exactly what the Evil One is up to!

The Trojan Horse

Maybe you know the story of the Trojan horse. When they wanted to seize the city of Troy militarily, they simply could not conquer her, they could not invade her. Then they craftily built a huge,

gigantic very high horse from wood, in which warriors were set. The city was touched that the enemy would withdraw and give them such a great present, a statue for the city! With joy they pulled it into the city. Overnight, however, the warriors came out of the horse and conquered the city. The same is happening now again – politicians, the Pope and bishops say cheerfully: „Come and enter Europe, come!“

Not those people are the enemies, but their faith is the enemy. Must I say more what danger there is? That is no longer a Christian West – it has not been for a long time! The SAVIOUR rather uses, as far as the Church is concerned, the dreadful word “cesspool.” – People, we must pray! We must live a Christian life! But it is evident, that in this darkness, every little light, which we should all be, will of course enrage the Evil One, who is momentarily swaying the sceptre on earth. If, wherever it may be, a little candle is still burning, the incredibly proud one is offended because of it and will go out of his way to snuff out this light. My dear parents, keep a weather eye on the school-books and religious instruction books of your children. It is your duty! Woe to those who don't! They will be called to give account before GOD.

Battle of Spirits

How can you tell whether the devil is playing with you? He can tell you if you sin against any one of the Commandments: „You know, it is not so bad as they say. There are exceptions. You are now the exception. It is not a sin.“ You know inwardly that it is sin, but in your head you give in. Especially with the 6th Commandment the Evil One will try to persuade you: „Come on, just for once,“ or: „You have to do that, you have to get rid of your spare energy! Then it is not sin. It's not written in any Bible either.“ And yet you know that GOD or your Guardian Angel cannot stand by and watch with pleasure if you do that. Each time when you inwardly know exactly that it is actually not right and yet you think: „Well, it is not that bad ...,“ you can be

sure that the Evil One is behind it. In that case there is only one thing to do: remember your Guardian Angel next to you! Imagine him watching you what you are going to do. Will he approve of it? Will he be happy with it? It would be a great help to make it your own. I used to do so in the past.

At the time when they removed the communion rails from the churches, there were priests who were annoyed if someone bent their knees before receiving Holy Communion while standing. Imagine: the devil standing on one side of the priest and the Guardian Angel standing on the other side. Just think about it: who is laughing when the priest is annoyed because people bend their knees for the SAVIOUR before receiving Him? It is obvious, isn't it? We should always think in such way. People, when tempted by the Evil One, often make the mistake of thinking in a human way with their minds. No! Think as your Guardian Angel next to you thinks! And if you are wavering in thought, it means that this is a battle of spirits. Who do you say is right?

Christian West

The worst of all today is that we have no longer a Christian West, with which we willingly keep priding ourselves on. However, JESUS CHRIST said: „Go into all the world! Teach them to obey everything I have commanded you, baptizing them in the Name of the FATHER and of the SON and of the HOLY SPIRIT!“ But today they say all religions are welcome, we are not allowed to contradict anyone. They are building a gigantic house where St. Padre Pio lived, and in still other places, where all religions are allowed to gather. Do people still not understand what is going on? Is this still a Christian West? No! A multicultural religion, that's what it is! It is dreadful!

More and more foreigners are smuggled into the country. There are already so much criminal activities among them. The police must remain silent triggered by politics. Rapes, brawls, demonstrations and so on are increasing continuously. Foreigners who want to live in
