

Christmas 2025

My beloved!

I wish every single one of you a merry and blessed Christmas!

How intimately does the CHRIST Child long for love from the heart! Be creative and generous in demonstrations of love, for how much does GOD's heart surge with joy at this, as He receives so little love from people nowadays – He who is love itself!

On Christmas Eve, I will gather you all spiritually around my Altar. May the richest Christmas blessing and grace be bestowed upon you from the Holy Sacrifice of the Mass.

For all your support over the past year – whether in prayer, through active help, materially, financially ... – my deepest thanks! You can be certain to receive GOD's reward for this, because no one can give something to GOD without Him giving back more.

My blessing as Sword-Bishop be always with you, also in the new year 2026!

Lchvert-Rischof
